THE ART OF OUTROSPECTION

Leadership teams, associations, conferences

Most of us were taught to grow by looking inward. Drawing on 500+ long-form interviews, Rush teaches the three moves of outrospection: **Reach** toward someone else's story, **Reveal** the truth under the answer, and **Reclaim** what it teaches you about your own life.

OPERATION SEARCH & RESCUE

Veteran, military and community organizations

Rush knows what it's like to be the one still gripping the wheel. Three orders for reaching the veterans who've gone quiet: get your story out of the hull, be somebody's kitchen table, and reach the one still gripping the wheel. Then one question: who are you rowing back into the storm for?

THE CAPTAIN OF A SINKING SHIP

Recovery, faith and personal-growth audiences

Rush's own story, and the setup for Operation Search & Rescue: combat, collapse, a suicide attempt, incarceration, and years of being treated for the symptoms of undiagnosed PTSD. Then the long work of steering a life back toward purpose.
